Corrugated Paper Box

We are reckoned as a prominent Corrugated Paper Box Manufacturer and Supplier based in Jamshedpur, Jharkhand. We produce Corrugated Paper Boxes ranging from 3 ply to 9 ply. Also, we are backed with the efficient sources for producing customized Corrugated Paper Boxes from 80 gsm to 280 gsm with 16bf to 35 bf. Clients can avail Corrugated Paper Boxes at very competitive rates.

Available In Various Sizes, Dimensions & Specifications laid by the clients.

Die Cut Paper Box

The Die Cut Paper Box provided by us is manufactured from quality material. Our Die Cut Paper Boxes are perfectly finished having high storing capacity. These Die Cut Paper Boxes are highly demanded by the clients for their greater strength and unique looks. We can also produce Die Cut Paper Boxes in various sizes and dimensions suiting diverse requirements of the clients.

Duplex Paper Box

The Duplex Paper Box provided by us is manufactured from quality material. Our Duplex Paper Boxes are perfectly finished having high storing capacity. These Duplex Paper Boxes are highly demanded by the clients for their greater strength and unique looks. We can also produce printed Duplex Paper Boxes in various sizes and dimensions suiting diverse requirements of the clients.

Interlocking Paper Box

We are also known for Interlocking Paper Box Manufacturer and Supplier present in Jamshedpur, Jharkhand. The Interlocking Paper Boxes offered by us are made from high quality material using superior advanced manufacturing techniques. These Interlocking Paper Boxes are ideal for for storing heavy products or items in bulk. We can make the best Interlocking Paper Boxes in discounted rates.

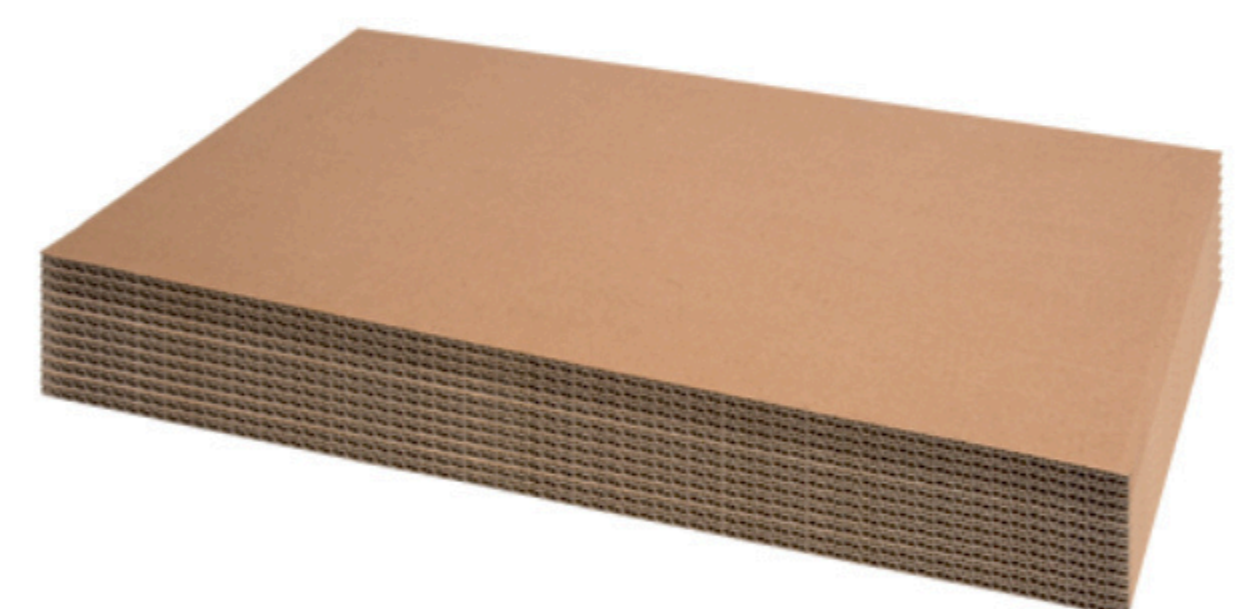

Self Ejecting Paper Box

We are engaged in manufacturing Self Ejecting Paper Box in the domestic markets. The Self Ejecting Paper Boxes provided by us are highly demanded by the clients due to their high quality and strength. Self Ejecting Boxes is appreciated among the buyers due to their high load bearing capacity and durability Self Erecting Boxes caters to the industrial requirements of various industries.

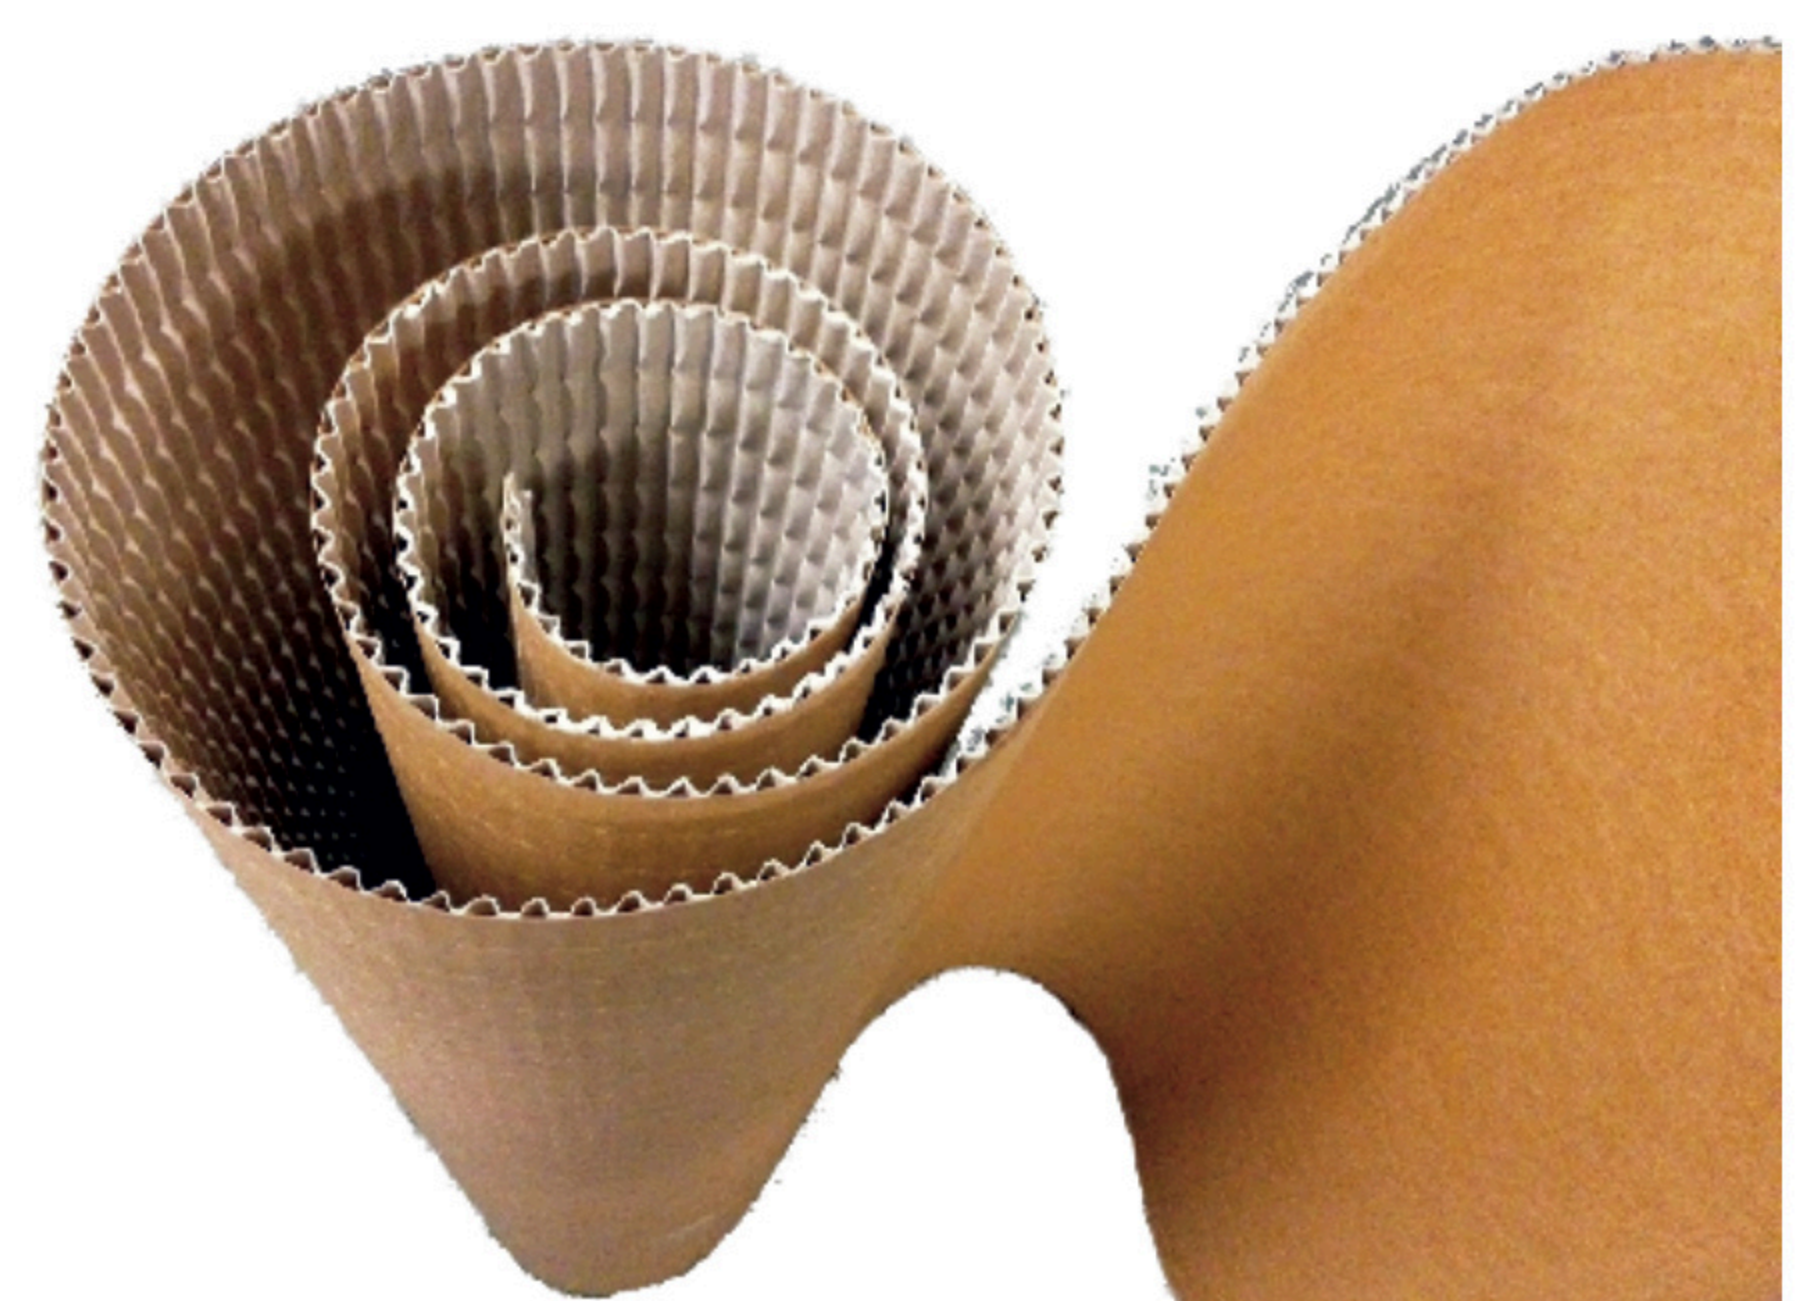

Corrugated Paper Sheets

We are an eminent Corrugated Paper Sheets Manufacturer and Supplier located in Jamshedpur, Jharkhand. The Corrugated Paper Sheets offered by us are made available in various sizes and dimensions ranging from 3 ply to 9 ply as per clients specific demands. Corrugated Paper Sheets find usage in many industrial applications. Also, Corrugated Paper Sheets can ideally replace wooden crate base. Clients can avail Corrugated Paper Sheets at the most pocket friendly rates from us.

Corrugated Paper Roll

We are listed as one of the prime Corrugated Paper Rolls Manufacturers and Suppliers based in Jamshedpur, Jharkhand. Corrugated Paper Rolls are used for packing various industrial applications. These Corrugated Paper Rolls are available in various options ranging from 16 bf to 28 bf. WE can also manufacture Corrugated Paper Rolls in various specifications as per clients requirements. It Glass, Mirror, Cylinder, Machines & packing household materials.

Stretch Wrap Film

*Machine Roll Stretch Wrap Film:

Our Machine Grade quality with more than 300% stretchability and high tensile strength. Tear Resistance, High quality cast film machine rolls, transparent and quiet in use. Suitable for all products wrapping of large pelletized loads. Offers excellent tear strength to protect sharp corners (Core diameter: 76 mm).

*Hand Grade Stretch Wrap Film:

We offer ideal quality hand grade stretch film that fulfills all kinds of requirements of packages finely. It is proven best for the strength. It is easy and fast to wrap and offer very fine grip.

Our wide range of hand grade stretch film with varied thickness. It is available with normal to heavy-duty packaging. For broad-spectrum use, it is available with 50 microns, also available up to 100 microns film. It offers full safety to heavy loads and there is no need to proceed for extra layer.

Easy to apply: Film is already stretched so it requires less tension, and can be used quickly and easily. Secures loads effectively to the pallet. Your pallets will not lose shape and your goods will stay protected.

*Benefits of Stretch Wrapping:

Strong & Clear Film: Sticks only to itself to prevent products on pallets from moving while in transit, **Waterproof & Resistant:** Dust & bad weather protection. Center folded for easy handling and storage. By using Stretch film, anti-quoted methods of strapping and metal banding as well as expensive & time-consuming use of wooden support, cloth, plastic and fiberboard is done away with:-

- Recommended for Parcels, bundles and pallets.
- Secures irregular shaped loads.
- Suitable for use with standard cores.
- Recommended for use in deep freeze storage.

VCI (Vaporized Corrosion Inhibitor) Films

Your products might lie at rest for years, in warehouses, in containers, in exhibition halls, on construction sites etc. But more frequently, the problems of corrosion arise when products are exposed to harsh transportation and varying climatic conditions – land, sea or air. We have VCI film to fit every application - multi-metallic, ferrous, non-ferrous, cast iron, copper as well as long and short-term applications. Our film eliminates the need for oils and liquids, which leaves the metal clean, dry and ready for use.

Vaporized corrosion inhibitor (VCI) films are among the most effective solutions for corrosion protection in the metalworking industry. VCI films are easy to apply, and are available in a wide range of shapes. They can be adjusted to the specific needs of your product, storage and transportation requirements.

Our products and packaging solutions are developed in collaboration with customers to ensure adherence to both customer and industry expectations. Health and Safety, Our approach to customer satisfaction is achieved by clearly understanding your needs, so that we not only adhere to industry standards, but also meet the requirements of your own company when it comes to health and safety.

VCI films are available in the following shapes:

- Single wound sheet/Tubing/Center fold sheeting
- Flat and gusseted bags
- Case liner and covers
- Skin/stretch and shrink film
- Elasticated bags
- Lock-tip-bag/zipper bag
- Sealed shapes and special constructions
- VCI Bubble films
- Special constructions to customer demand

PP Strap (Polypropylene Strapping)

We "Aarisha Packaging" are also engaged in supplying of box Straps. We offer very high quality box straps which are manufactured with very quality material which is procured very reliable vendors. These are used in the packaging of several industrial products which assure the safety of products during their transportation. There are very wide range of box straps are available with us are Manual P.P. box strap, semi-automatic P.P. box strap and PP strapping band. And we offer these at very cost effective prices.

*Advantage of PP Strap:

1. Low cost, longer length, anti-corrosion, strong bonding , good tensile strength.
2. Nice appearance, bright color, logo printing and color can be produced according to customer's order.
3. Suitable for all type of strapping machines.
4. Meet international environmental standard for packaging material.

FEATURES

- Extremely Flexible
- High Consistency while usage
- Outstanding finishing
- Moisture- proof
- Incredible Tear strength
- Temperature tolerant
- Resistant to changing weather
- Shrink resistant
- Breakage and snipping resistant
- Very Durable

USAGE

Widely used in Auto & Motorcycle, Food, Pharmaceutical, Electrical Appliances, Electronic, Light Industries, etc.

BOPP Tapes

We Aarisha Enterprises also deals in a wide range of high-quality BOPP (biaxially oriented polypropylene) tapes. Our BOPP tapes, manufactured in state-of-the-art facilities, are strong, have superb adhesion and can withstand extremes of temperature and pressure. They have been designed to provide complete protection to packages during transit and handling.

BOPP tapes are tamper-proof and are available in a variety of colours, thickness, roll lengths and roll widths (see specifications).

We also provide custom-printed or signature tapes that can be printed with your company's logo or product name. This not only prevents tampering, it also provides companies a branding opportunity.

Advantages of Our BOPP Tapes:

- Superb tack and adhesion to surface
- Strong grip due to excellent adhesive backing
- Quality processing equipment that guarantees consistent quality
- Uniform coating process
- Assured and marked tape length
- Durable Long shelf life.
- Peak performance even under extreme pressure and temperature conditions
- Custom printed tapes upto 2 colours

Product Details :

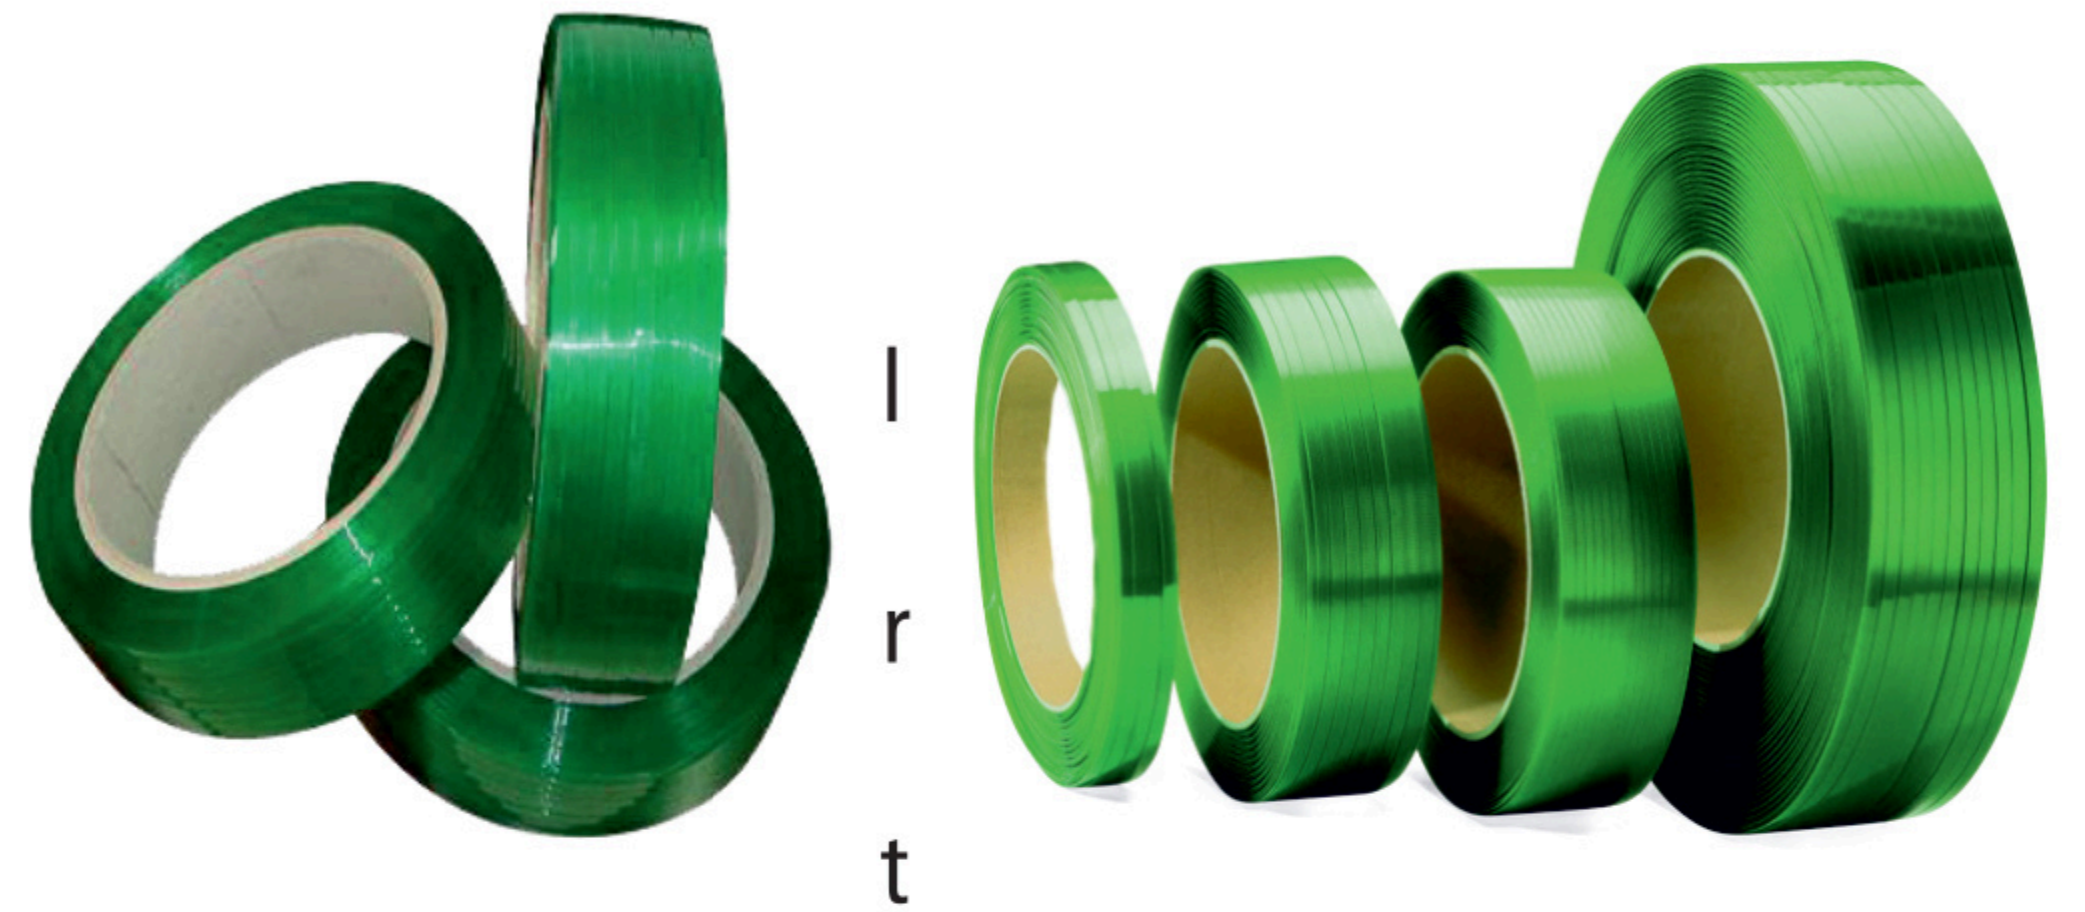

- Color :Black, Transparent, White, Brown
- Feature :Water Proof
- Thickness(mm) :0.5-2 mm
- Available Thickness - 40 micron to 55 micron
- All Colours, Super Clear, Transparent, Brown, White, etc
- Available in all sizes and required lengths

Pet Strap (Polyester Strapping)

We "Aarisha Enterprises" are also engaged in supplying of PET STRAP Polyester (Polyethylene Terephthalate) Strapping that is an alternative of Steel Strap. Inalterable in conditions of sudden temperature changes and unaffected by ultraviolet rays, guarantees constant tension during each and every stage of the package handling, thus providing conditions of absolute safety during transport. Our PET is rust-proof and easy to handle, thus guaranteeing maximum ease of use for the handler.

It is being increasingly used for strapping medium and heavy loads in place of Steel (Iron) Strapping. It can also be used in place of other Plastic Straps where High Tensile Strength is required We have installed a plant to produce Polyester (PET) Strapping ranging in standard width from 9mm to 32mm and thickness from 0.5mm to 0.9mm. We are leading manufacturers, suppliers and exporters of Polyester Strapping from India.

Specifications of Polyester (PET) Strapping

Width mm	Thickness mm	Gm/ Mtr.	Break Strength (Kgf)	Elongation %	Length per 25kg
